Preface

The importance of formal education is diversified. The prime goal of modern education is not to impart knowledge only but to build a prosperous nation by developing skilled human resources. At the same time, education is the best means of creating a society free from superstitions and adheres to science and facts. To stand as a developed nation in the science and technology-driven world of the 21st century, we need to ensure quality education. A well-planned education is essential for enabling our new generation to face the challenges of the age and to motivate them with the strength of patriotism, values, and ethics. In this context, the government is determined to ensure education according to the demand of the age.

Education is the backbone of a nation and a curriculum provides the essence of formal education. Again, the most important tool for implementing a curriculum is the textbook. The National Curriculum 2012 has been adopted to achieve the goals of the National Education Policy 2010. In light of this, the National Curriculum and Textbook Board (NCTB) has been persistently working on developing, printing, and distributing quality textbooks. This organization also reviews and revises the curriculum, textbook, and assessment methods according to needs and realities.

Secondary education is a vital stage in our education system. This textbook is catered to the age, aptitude, and endless inquisitiveness of the students at this level, as well as to achieve the aims and objectives of the curriculum. It is believed that the book written and meticulously edited by experienced and skilled teachers and experts will be conducive to a joyful experience for the students. It is hoped that the book will play a significant role in promoting creative and aesthetic spirits among students along with subject knowledge and skills.

Communicative grammar is a comparatively new trend in the field of English language teaching. The main difference between conventional and communicative grammar is characterized by the teaching and learning approaches. The traditional grammar book explains the rules and focuses on usage while communicative grammar presents items in contexts and creates opportunities to use the language accurately as well as fluently. Thus, communicative grammar promotes accuracy alongside fluency and helps develop language acquisition. Again, the composition part in the book introduces the process approach so that the students can express and organize ideas in writing without memorizing various genres of writing in English. It is hoped that the English Grammar and Composition books for grades VI-X will develop students' grammatical competence and writing skills.

It may be mentioned here that due to the changing situation in 2024 and as per the needs the textbook has been reviewed and revised for the academic year 2025. Meticulous attention has been paid to the textbook to make it more learner-friendly and error-free. However, any suggestions for further improvement of this book will be appreciated.

Finally, I would like to thank all those who have contributed to the book as writers, editors, reviewers, illustrators, and graphic designers.

Unit One

Parts of Speech

Lesson 1: Nouns

A. Look at the underlined words in the following passage:

Anika is in class seven. She lives in a village of Jamalpur with her parents. She has two sisters. She often takes them to school. She has to help her mother as well. Her father is a small businessman. In her free time, Anika likes to draw pictures and write poems in Bangla. Anika's dream is to become a computer engineer.

These are all nouns. A noun is a word used to refer to people, animals, objects, substances, states, events, ideas and feelings.

B. Nouns can be **countable or **uncountable**. The nouns which can be counted are **countable** and those which cannot be counted are **uncountable**.**

Read the following sentences and say whether the underlined nouns are countable or uncountable:

He has many friends.

Kamal has given me some good news.

Urmi borrowed some books from the library.

Afsana eats bread for breakfast.

Zahid's father is a teacher.

C. Countable nouns have two forms: singular and plural. The singular form refers to one person or thing and the plural form refers to more than one person or thing.

a. How to make plurals

Regular plurals are formed by adding 's' to the singular forms of nouns.

For example:

book-----books

flower-----flowers

teacher----- teachers

b. By adding 'es' to nouns ending in 'ss', 'ch', 's', 'sh' or 'x'. For example:

watch----- watches

class-----classes

box-----boxes

c. Nouns ending in consonants and 'y' change to 'ies' in the plurals. For example:

country -----countries

victory ----- victories

lady ----- ladies

d. Nouns ending in a vowel and 'y' have an 's' in the plurals. For example:

boy -----boys

day ----- days

key ----- keys

e. Some common nouns have irregular plurals. For example:

child ----- children

foot ----- feet

mouse ----- mice.

Give the plurals of the following nouns. One is done for you:

horse-----horses	woman-----	tooth -----
glass -----	wish -----	truck -----
pencil-----	friend -----	monkey -----
tomato -----	way -----	eye -----

D. Rewrite these sentences using plural nouns. One is done for you:

1. A bus is quicker than a rickshaw. / Buses are quicker than rickshaws.
2. A tiger is a ferocious animal. / _____
3. A banker earns more money than a teacher. / _____
4. A laptop is an expensive piece of equipment. / _____

2. The _____ were waiting for me. (child/children)
3. The _____ are in the shelf. (book/books)
4. Do you know the _____ who lives next door? (man/men)

5. The letters you posted yesterday _____ confidential.

6. The young man you met yesterday _____ transferred to this office recently. (has been/ have been)

Lesson 2: Pronouns

A. Look at the underlined words in the following texts :

- a. Mr Ahmed is reading a book. It is very interesting.
- b. Students of this school are very disciplined. They all stay in the hostel.
- c. The game teacher asked players to go to the field in the afternoon. But nobody was there.

Note: Here 'It' refers to a book, ' they' refers to students and 'nobody' refers to players. Here *it*, *they* and *nobody* are called pronouns as they are used instead of nouns. In other words, pronouns are alternatives to nouns. When something or someone is already mentioned in a sentence you refer to them again by using a pronoun.

B. Look at the pronouns in the box:

I	you	she	they	we	nobody	it	who
---	-----	-----	------	----	--------	----	-----

These are called personal pronouns. Let us learn more about personal pronouns. Pronouns have 3 forms namely subjective, objective and possessive. Look at the table below and see different forms of pronouns.

Subject form	Object form	Possessive form
I	me	my, mine
we	us	our, ours
you	you	your, yours
they	them	their, theirs
he	him	his
she	her	her, hers
it	it	its

C. Look at the following sentences:

My brother is healthy. He weighs 75 kg.

Ms Shaila works in a bank. She has been doing this job for the last 15 years.

Note: In English, 'he' and 'she' normally refer to people, but they often refer to animals too.

D. Now use personal pronouns in the following text:

Maruf's father is a businessman. _____ has been in business for about 15 years. Currently in his farm, there are 20 people working full time. _____ has three children who are going to school. Maruf is _____ second child. The youngest and eldest are both _____ daughters.

E. Let us use pronouns in their possessive forms. Look at the examples :

This is our school.

Who is your brother?

Do you know where my pen is?

Look at the following sentences. 'Yours', 'hers', 'his' and 'ours' are also possessives.

This is my book. That is yours.

These toys are hers.

This bicycle is his.

This garden is ours.

Now use possessives in the following sentences.

After retirement Mr Kamal is living in _____ own village. He lives with his wife who has also retired from _____ job as a school teacher. _____ children live in Bogra where they have _____ own families. _____ children often ask them to visit them.

Lesson 3: Adjectives

A. Look at the underlined words in the following sentences :

Sharmin is a pretty girl.

Our library is big.

Do you have any digital camera?

Note: The words ‘pretty’, ‘big’ and ‘digital’ describe a girl, a library and a camera respectively. These words are called adjectives.

Look at the underlined words in the following text :

Ms Tahmina Anwar is a skilled teacher. She is qualified too. She has a long teaching experience. She has an excellent academic record as well. She is a favourite teacher to her students as she is very caring.

Now say which words these adjectives describe or modify.

B. Now look at the passage below and fill in the gaps with adjectives:

My uncle is a _____ engineer. He works in a _____ company as a _____ engineer. He graduated in _____ engineering from BUET. He also studied abroad for his _____ qualification. Currently he is in charge of a _____ project.

C. You may use words with ‘ing’ ending as adjectives to describe the effect that something has on your feelings or on the feelings of people in general.

Look at the words in the box below and use some of them as adjectives in your own sentences:

charming, amazing, boring, exciting, disappointing,
 encouraging, welcoming, surprising, shocking, alarming,
 embarrassing, confusing, depressing, existing, living, tiring,
 dying,

The past participle forms of verbs that describe our feelings can be used as adjectives too. Look at the words in the box below:

delighted, interested, frustrated, worried, depressed, surprised, tired, amazed, exhausted, satisfied, bored, pleased,

Use 4-5 of these adjectives in your own sentences:

D. Now use appropriate words in the blanks of the following sentences:

1. My friend Tumpa is _____ in music. But she thinks cricket is an _____ game.
2. Moynamoti is an _____ place to visit but my uncle was _____ with the long journey there.
3. I felt really _____ to see my teacher in my uncle's wedding; it was _____ too.

Lesson 4: verbs (Unit Four)

Lesson 5 : Adverbs

Look at the underlined words in the following sentences:

He goes to his school regularly.

We really enjoyed our picnic.

Some students are playing in the field.

Come and meet us next week.

Zamil: Do you often visit your grandma?

Asif: Yes I do! I visit her frequently.

Juthi: Can you please supply us with milk daily?

Milkman: No madam, I can give you milk only twice a week.

These are all adverbs. Can you guess what words they modify?

Adverbs usually modify verbs, but they often modify adjectives, nouns, other adverbs and whole phrases or sentences:

<u>Examples</u>	<u>functions</u>
<i>Sit quietly!</i>	to modify a verb (<i>sit</i>)
<i>Sayed was rather quiet.</i>	to modify an adjective (<i>quiet</i>)
<i>That event seemed to go by incredibly slowly.</i>	to modify another adverb (<i>slowly</i>)
<i>It takes quite a lot of courage to jump from a plane.</i>	to modify a noun phrase (<i>a lot of courage</i>)
<i>I'm going for a run later so I don't want to eat anything now.</i>	to modify the whole clause (<i>I'm going for a run</i>)
<i>Personally, I don't like the plans.</i>	to modify the whole sentence (<i>I don't like the plans.</i>)

Note : ‘Personally’ gives the speaker’s attitude. We often use comma (,) after such an adverb when it modifies the whole sentence.

An adverb comes after a verb. It is usually a word but sometimes a group of words modifies a verb. Then that group is called an adverbial phrase. Any adverb or adverbial phrase that modifies a verb is called an adverbial.

Rakib looked at his friends nervously after he had lost his admit cards.

Here the underlined word describes how something has happened. This is an **adverbial of manner**.

The toy was lying on the table.

Here the item describes where something was. It is an **adverbial of place**.

They visited their hometown last month.

Here the underlined item tells when something happens. It is an **adverbial of time**.

Now fill in the gaps with appropriate adverbs :

He opened the door _____.

Our music class is held _____.

All students were present _____.

He _____ made this comment.

Bangladesh Cricket team is doing _____.

Lesson 6: Prepositions

Look at the underlined words in the following text:

Mr and Mrs Ali request their pleasure for your gracious presence at the wedding ceremony of their eldest son Iftekhar Ali with Dilruba Yasmin, youngest daughter of Mr and Mrs Rafik Ahmed to be solemnized on Saturday, 21 January 2016 at Platinum Convention Center, Dhanmondi, Dhaka at 7.30 pm.

These words are called prepositions. A preposition is followed by a noun or its equivalent.

A. Use the following prepositions in sentences of your own:

with, on, in, to, up, over, for, at, of, by,
--

B. Complete the following text by using appropriate prepositions.

My auntie lives _____ Mogbazar just _____ Holy Family Hospital. Her flat is _____ the 5th floor. She lives _____ her family there. She often visits her good friend and neighbour who lives just one floor up; the top floor _____ the building. My auntie has been living in her flat _____ the last three years.

Lesson 7: Conjunctions and Interjections

A. Read the following passage and notice the words in bold:

Dipu **and** Raj are good friends **but** they are not of the same age. They have been even together as neighbours. Many years back they thought they would settle abroad **but** after their higher study overseas they decided to buy land in the same area. When they found it together, Raj said to Dipu, "Let's buy it now **or** never".

The words **and, but, or, because, yet** are called conjunctions. The main function of these words is to link words, phrases and clauses together.

Now write five sentences using each of the above conjunctions.

B. Read the following sentences and notice the underlined words:

Wow, so big a cake!

Alas! They have lost the game.

Oops, I have got hurt!

Omg, how could you do that!

The above underlined words are interjections. An interjection is a part of speech which expresses a strong feeling of joy, pain, surprise or disgust.

Now make some sentences using the following interjections.

Note: 'am/is/are + going to' is used in situations when you are informing someone about a plan you have already made or assumed. This kind of present continuous form indicates an arranged future. For example,

Students, please everybody go to the class. Your class teacher is going to announce your mid-term results in the class.

Sometimes you may confuse "am/is/are +going to" future with the simple future using *will*. The modal "will" seems best for situations when you are in the process of making a decision about the future. Most often you use *will* to talk about the future generally. For example:

Who will open the door if I am late?

B. Now complete the dialogues below using the verbs in brackets with *will* or *going to*:

1. A : Have you decided to spend extra money?

B : Well, I think I _____ to a restaurant for a good dinner but haven't decided yet.

2. A : Have you decided how you will spend the holiday?

B : Not yet but I think I _____ to my village for a few days.

3 A : My cousins are coming from Italy this Friday.

B : _____ you _____ to receive them at the airport?

5. A : Our school has set up a new routine for our classes effective from this Saturday.

B : Yes, we _____ to attend the first class much earlier.

6. A : Have you collected your tickets for the concert?

B : Not yet. But I think we _____ there on Friday if we can.

C. Compare these two remarks:

Why, do you think, is the form of the verb 'rain' different in (a) and (b)?

- a) It will rain tomorrow as soon as we get to the park.
- b) According to the weather forecast it's going to rain tomorrow. Maybe we shouldn't go to the park.

Note: If you make a general prediction about something, you can use "will". If you link your prediction to the present in some way, you can use "be going to". In sentence (b) above, the speaker uses "be going to" because he/she wants to emphasize that the prediction is based on the present weather forecast.

D. Now use *will* or *be going to* in the following sentences:

1. The opposition has called a strike on Sunday. I _____ (not go) to attend my classes.
2. I _____ (carry) an umbrella if it rains.
3. The way all Kiwi wickets are falling, I think Tigers _____ (win) the match easily.
4. Son: Father, any plan for the weekend?

Father: Our whole family has been invited to my colleague's daughter's wedding. So, we _____ (attend) the party.
5. It is not cold here. I _____ (wear) a jumper.

Lesson 6: Present Perfect Tense

A. Read the following text and look at the underlined verbs :

1. I have done my homework. Can you please look at it?
2. One of our friends has joined the inter district debate competition.
3. Does anybody know who has torn off the notice from the board?
4. I do not know if Anik has been selected for the cricket match.
5. Congrats Manosh, you have done an outstanding job.

Present Perfect expresses the completion of an action by now. Therefore it is, strictly, a kind of present tense because (a) you are not emphasizing when the action took place; (b) you are only interested in the present state of completion; i.e., its effect on events now.

So this tense must never be used if we state or suggest a definite time in the past. Now, look at the following sentences and fill in the blanks with appropriate forms of verbs of the present perfect:

1. Please open your book. Have you (open) it?
2. Wow! It's a wonderful piece of drawing. Who _____ (draw) it?
3. Excuse me, teacher. Could you please repeat what you _____ (say) just now?
4. I am very worried about my homework. I _____ (not finish) it yet.
5. There is a big museum in the city. _____ you _____ there?
6. Please tell me what exactly you _____ done and what is yet to be done.

B. Now use appropriate verbs in the blanks of the following dialogues :

1. Teacher: We have only one day left for the science fair. Now let me know who _____ what.

Zarif: I _____ the wall, sir.

2. Mother: There are only a few chocolates on the table. Who _____ the others?

Mayisha: Mom, I _____ just one.

3. Teacher: Let's brainstorm on the topic for a minute. Now Anika, tell me what _____ .

5. It was midnight and my elder brother was still working on his laptop.

Note: Any action that was happening at a certain time in the past is put in the past continuous tense. Here is the form: subject + was/were + main verb + ing + extension.

B. Use the past continuous form of the verbs in the following sentences:

1. The sun (shine) when we went out.
2. When you came, I (write).
3. My brother asked me, "Why didn't you receive my call?" "I (sleep) then".

- 1. _____
- 2. _____
- 3. _____
- 4. _____
- 5. _____

The past form and the past participle form of regular verbs end in 'ed'. But irregular verbs make their past simple and past participle forms in an irregular way. For example:

work, worked, worked (regular)

go, went, gone (irregular)

But you should note the following points:

1. Some verbs can be both regular and irregular. For example:

learn, learned, learned

learn, learnt, learnt

2. Some verbs change their meaning depending on whether they are regular or irregular ; for example "to hang":

regular	hang, hanged, hanged	to kill someone by dropping them with a rope around the neck
irregular	hang, hung, hung	to fix something (for example, a picture) at the top so that the lower part is free

Below is a list of regular verbs which you should learn carefully.

Unit Five

More about Adjectives

Lesson 1: Introducing Adjectives

A. Read the words in italics in the following captions:

A good cricketer has to be physically fit.

Our female cricketers brought some *happy* moments for the country.

The formation of human national flag was a *fine* expression of our patriotic zeal.

A stream in the *hilly* region is worth visiting

What are the words in italics for?

What are the functions of these words?

The words 'good', 'happy', 'fine' and 'hilly' modify the nouns after them.

These words are to provide some information about nouns i.e. they state the quality of nouns.

When someone wants to present information about something, one can do it by using a Noun alone; but, one can use an **Adjective** to modify or describe it in more detail. Therefore, adjectives give additional information about a Noun or Pronoun.

Note: The form of an Adjective does not change with singular and plural.

B. Identify adjectives in the following passage:

Muntaha is Bani's *best* friend. Bani is a *brilliant* student. She borrowed *three* books from Muntaha. All the books are *new*. The books are *interesting* as well.

Do all the above adjectives take the same position in the sentences?

In some sentences, the adjective is used before a noun. But in other sentences, the adjective comes after the verb. The adjectives that come before a noun are called **attributive adjectives** and those coming after a verb are called **predicative adjectives**.

C. Use the following adjectives in different positions. One is done for you:

safe, interesting, new, old, unsafe, excellent, huge, quite, cold, yellow, nice, hot, enormous, furious, gorgeous, crazy, tiny

Safe: We had a safe journey. (before a noun)

Our journey was safe. (after a verb)

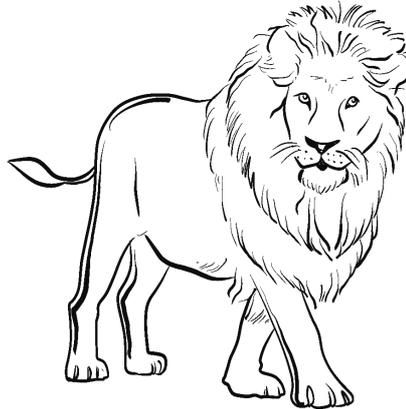

I found him safe. (after an object)

D. Match the following adjectives with the nouns they go with:

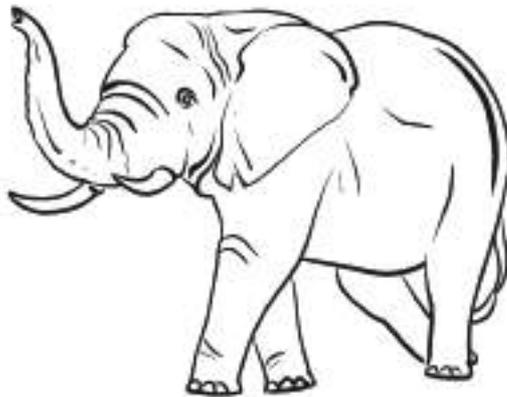

gorgeous	crowd
terrifying	insect
tiny	experience
exhausted	music
soaked	temperatures
huge	dress
starving	customer
freezing	clothes
furious	meal
terrible	comedy show
hilarious	refugee
deafening	runner

Lesson 2: Comparison of Adjectives

A. Read the captions and mark the adjectives in different forms:

The lion is faster than the elephant.

The elephant is the heaviest land animal.

B. Look at the adjectives in the following sentences:

Mahin is a *tall* boy. Safin is *taller* than Mahin. Raiyan is the *tallest* of the three. Mahin bought a *big* basket. Safin bought a basket *bigger* than that of Mahin. Raiyan bought the *biggest* basket of the shop.

There are three forms of Adjectives:

tall (positive) ---- taller (comparative) --- tallest (superlative)

big (positive) ---- bigger (comparative) --- biggest (superlative)

Note:

- The positive degree of an adjective is in its base form. The positive degree is used when no comparison is made.
- The comparative form is used when a comparison is made between two persons or things.
- The superlative degree is used to show the highest degree of quality when more than two things or two sets of things are compared.

C. Comparative and Superlative forms

i) Most positive adjectives of one syllable take 'er' and 'est' to form comparative and superlative degrees respectively.

Positive	Comparative	Superlative
big	bigger	biggest
bold	bolder	boldest
bright	brighter	brightest
black	blacker	blackest

Positive	Comparative	Superlative
clever	cleverer	cleverest
great	greater	greatest
kind	kinder	kindest
small	smaller	smallest
sweet	sweeter	sweetest
tall	taller	tallest
young	younger	youngest

ii) Adjectives ending in 'e', add 'r' and 'st' to form comparative and superlative degrees respectively.

Positive	Comparative	Superlative
able	abler	ablest
brave	braver	bravest
fine	finer	finest
large	larger	largest
noble	nobler	noblest
white	whiter	whitest
wise	wiser	wisest

iii) All adjectives of two syllables ending in 'le', 'y', 'er', and 'ow' generally take 'er' and 'est' to form their comparative and superlative forms respectively.

Positive	Comparative	Superlative
simple	simpler	simplest
happy	happier	happiest
narrow	narrower	narrowest
tender	tenderer	tenderest

iv) Some positive adjectives take comparative and superlative forms without following the regular norms.

Positive	Comparative	Superlative
bad	worse	worst
good	better	best
much	more	most

v) Adjectives of more than two syllables and many of those with two form their comparative and superlative degrees by putting 'more' and 'most' before the positive respectively.

difficult	more difficult	most difficult
diligent	more diligent	most diligent
industrious	more industrious	most industrious

“I can’t wait to go skiing,” he said, “and all that sun and snow will be wonderful!”

The plane landed at a ----- airport and very soon Jamie and Jasmine and their parents were in a small ----- hotel at the bottom of a mountain. They went outside and looked around. They saw--- mountains all around them.

“Tomorrow I want to go up a mountain,” said Jamie.

They went back to the hotel. There was a ----- fireplace and it was warm. In front of the fire they saw a big ----- dog. It was asleep and snoring happily.

Jasmine liked dogs. She patted the dog on the head. It opened one eye and yawned. Jasmine saw the dog’s name on his collar – Bruno. The dog looked at Jasmine and smiled. Then it closed its’ eyes, crossed its’ paws and went back to sleep.

“What a ----- dog,” said Jasmine. “He’s a big ----- softie.”

They left the ----- firelight and went upstairs to bed. In no time at all Jamie was dreaming of speeding up and down mountains as a champion skier.

To Munira’s aunt, he is ----- ----- baby in the world. Munira loves Tanbin so much. She is Tanbin’s ----- sister. She plays with him. She is ----- than Tanbin. Bondhon is ----- about Tanbin, so is Munira about him. When Tanbin cries, Bondhon calls his mother and Munira gives him ----- toys. Tanbin loves ----- toys. Tanbin’s father presents him with ----- toys too.

Unit Six

More about Adverbs

Lesson 1: Introducing Adverbs

A. Read the following passage and notice the words in italics:

Mashrafi runs *fast*. He knows how to prepare for a match. He is taking preparations for the upcoming world cup tournament. He is taking a *very* careful preparation. Other teammates have joined the team *here*. They are going to sit together with the coach. They will decide on some regulations for themselves *tonight*. They are *always* very optimistic.

Can you guess what their functions are?

These words modify either the verb, or the adjective/adverb they are with.

These words are adverbs.

Activity:

Identify functions of the adverbs in italics in the passage and say what questions they answer. One is done for you:

'fast' modifies the verb 'runs'; (It answers the question 'how')

Adverbs modify verbs by telling *how, when, where, or to what extent* the action takes place.

Note:

- **An adverb is a modifying word.**
- **An adverb mainly modifies a verb. But an adverb also modifies an adjective or an adverb.**

- B.** Identify the adverbs in the following sentences and say which words they modify:
- a. A wagon train that was very long started out from Laksam.
 - b. The trail through the mountains was fairly hazardous.
 - c. Bangladesh is a densely populated country.
 - d. The students are inside.

Here the adverbs modify verbs to tell us how a thing is done.

In most cases, adverbs of manner are formed by adding 'ly' to adjectives.

Some examples are given below:

accidental	accidentally
active	actively
actual	actually
additional	additionally
admirable	admirably

All these adverbs modify certain verbs and describe 'when' an action takes place.

Note :

- The adverbs which state **when** the action of the verb is done are **adverbs of time**.
- Adverbs of time are always related with 'time'.

D. Use the following adverbs of time in the box to fill in the blanks:

The words in italics tell us how often something happens.

The adverbs which state **how often** things happen are **adverbs of frequency**.

Unit Seven

More about Prepositions

Lesson 1: Introducing the Preposition

A. Read the following passage and notice the words in italics:

Jarif and Jawad live *at* 'Chadgao Abashik Elaka' *in* Chattogram. They wake up early *in* the morning. They go *to* bed early *at* night. They go *to* school regularly. Jarif needs a bag *of* books *for* his new class. Jawad needs a bag *for* his new school. They go to school *by* school bus.

These words usually establish relations with other words and come before a noun or anything equivalent to a noun.

They are called prepositions.

Look at the prepositions in the passage again and see the nouns after them:

In the first sentence '*at*' gives a relationship between 'Chadgao Abashik Elaka' and 'Jarif and Jawad'.

In the second sentence '*in*' creates a relationship between 'the morning' and 'they'.

In the third sentence '*to*' and '*at*' respectively create relationship between 'bed' and 'they'; and between 'night' and 'they'.

In the fourth sentence '*to*' establishes a link or relationship between 'they' and 'school'.

Guess the relationship of other prepositions with other nouns.

Therefore, the words that come before a noun or any noun equivalent to link it with another word of that sentence are **prepositions**.

A preposition is a relating word.

His writings reflect struggles of the general people. *Thus* his writings survive him even today.

The words in italics are linking words.

A student needs to have lots of qualities. He should be very studious. He should participate in outdoor games and debating activities. He should be punctual. He should have moral qualities. He should be social. He can be successful if he has these qualities.

and	firstly	thus	secondly	next	then
-----	---------	------	----------	------	------

A student needs to have lots of qualities. Firstly, he should be very studious.....

3. Fill up the blanks picking up linkers from the box below. The first one is done for you:

firstly, secondly, thirdly, fourthly, to begin with, moreover, to conclude, next

Several reasons were given for the language movement of the students of this country in 1952. Firstly, they were motivated to establish Bangla as their mother tongue. they were committed to the ideology of Bengali Nationalism. they wanted to raise

Unit Nine

Introducing Articles

Lesson 1: Indefinite Articles

A. Read the following passage and mark the words in italics:

Rajshahi is *an* old city. It stands on *the* Padma. In *a* village called Bausa in Rajshahi there is *a* man who is recognized as *a* book lover. He is Polan Sarker. Polan Sarker is *an* old man. He buys books with his own money. He lends villagers books. The villagers become delighted with books they borrow from Sarker. They have found that reading is *a* good habit.

These words are **articles**.

They take their positions in front of nouns or noun equivalent words. They are used before nouns to show whether the noun is definite or indefinite. Definite words take 'the' and indefinite words take 'a' / 'an' in front of them. So, 'a' and 'an' are **indefinite articles** and 'the' is a **definite article**.

B. Different uses of 'a' / 'an':

i) Observe the following words that have taken 'a' before them:

a girl, a boy, a pen, a ball, a bat, a field, a school, a district, a country, a continent, a box, a book, a student, a teacher, a word

The words that begin with a consonant sound take the article 'a' in front of them.

ii) Guess why the following words have taken 'an' before them:

an ox, an apple, an umbrella, an orange, an independent country, an interesting film, an eye, an enemy, an ass

'An' is used before the words that begin with a vowel sound.

- iii) Observe the following words that have taken 'an' before them:

an honest person, an heir, an hour, an M.A.

In the above box, there are some words that begin with consonants, but those consonants have a vowel sound.

Therefore, they take 'an' before them instead of 'a'.

- iv) Why do the following words take 'a' before them?

a university, a ewe, a European, a useful report, a unit, a unique opportunity

Though the words in the above box begin with a vowel, they are pronounced like a consonant sound.

So, instead of 'an', 'a' is used before those words.

- v) What about the following words?

'a one-eyed man'

Here 'o' sounds like 'w'; therefore, 'a' is placed before this word, not 'an'.

- vi) Generalized use of the article 'a'/'an':

A student should respect their teachers.

An idle brain is the devil's workshop.

Here 'a'/'an' has been used to generalize 'student' and 'idle brain'. 'A student' and 'an idle brain' respectively imply 'all students' and 'all idle brains'.

- vii) Why do the following names/designations have an indefinite article before them?

A Mr. Dipak Roy came to see you.

An Imran Khan is waiting for you in the lounge.

Names of unknown persons or their designations take 'a'/'an' to mean 'someone'.

viii) 'A' / 'an' in some exclamatory sentences:

What an honest man he is!

What a splendid picture you have drawn!

'a' / 'an' is used in certain exclamatory sentences that begin with 'what' to determine the noun of that sentence.

ix) Some phrases have 'a' / 'an':

in a hurry, at a great speed, at an early date, in a temper

The article 'a' / 'an' is used in a number of phrases.

x) Why do the following names have indefinite articles before them?

She is a Begum Rokeya, I see.

He is a Shelley of Bangladesh.

He is an Ernest Hemingway of India.

The article 'a' / 'an' has been used to denote **likeness**. Here the proper noun has been used as a common noun.

Lesson 2: Definite Articles

A. Different uses of 'the'

i) Do you understand the use of 'the' in the sentences below?

The cow is a domestic animal.
The camel is a useful animal.
The dog is a faithful animal.
The elephant is the largest land animal.

'The' is used before the above singular common nouns to represent the whole classes of these common nouns.

ii) 'The' is used to denote the name of a nation:

The Bengalis are freedom loving.
The English are industrious.
The French fought very hard.

- iii) 'The' is used before adjectives to mean the whole of a particular class.

The rich are not always happy.
The industrious succeed in life.
The virtuous are always happy.

- iv) 'The' is used before the singular existing nouns:

The sun rises in the east.
The earth moves round the sun.
The moon shines at night.

- v) 'The' is placed before the superlative degree-words:

Anupam is the best boy of the class.
Nahar is the tallest player of the team.
Jagdish Chandra Boshu was one of the most brilliant scientists of his time.

- vi) 'The' is placed before an ordinal number:

Bangladesh is the first country to celebrate 'text book festival' on the first day of an academic year.
Abdullah Al Muti Sharfuddin secured the second position in the all India merit list.
The first day of Bangla New Year wears a festive look all over the country.

vii) What do you think about the collective nouns? Do they take any article?

The mob is dispersed by the police.
The crowd was violent.
The flock is tended by a small boy.
The team hopes to keep up the winning spirit.

Collective nouns take 'the' before them when they represent a definite group of people or things.

viii) 'The' is placed before adjectives to mean the particular part of things.

Children are fond of the yellow of an egg.
They entered the thick of the forest.
I ate the small portion of the cake.
Air Asia crashed into the deeper part of the Indian Ocean.

ix) Usually Proper Nouns do not take 'the' before them, but 'the' is placed in the following exceptions:

a) Before the names of the mountain ranges:

the Himalayas, the Alps.

b) Before the names of the holy books:

The holy Quran, The Geeta, The Bible.

c) Before the name of a newspaper:

The Daily Star, The Guardian, The Herald Tribune.

d) Before the name of an ocean:

The Atlantic Ocean, the Pacific Ocean, the Indian Ocean.

e) Before the name of a group of islands:

The Andamans, the Philippines, the West Indies.

Unit Ten

Possessives

Lesson 1: Introducing Possessives

A. Read the text and notice the words in italics:

Uncle Masud drives *our* school bus. I reach *my* school in time. Sushil, *my* friend, also goes with me. He is a brilliant student of our class. Today *Sushil's* pencil box has been lost. So he has not completed his homework. As Shushil is a friend of *mine*, I have lent him *my* pencil. *Our* class teacher is very serious about *our* homework.

These are **possessives**. They answer the following questions:

Whose school bus is that?

Whose school is that?

Whose class is that?

Whose pencil box is lost?

Whose homework was not done?

Whose friend is Shushil?

They show ownership and relationship.

B. Find out the possessives:

Whose child is this?

“Whose child is this?” I asked one day

Seeing a little one out at play.

“Mine”, said the parent with a tender smile

“Mine to keep a little while
To bathe his hands and comb his hair
To tell him what he is to wear
To prepare him that he may always be good
And each day do the things he should ”

“Whose child is this?” I asked again
As the door opened and someone came in
“Mine,” said the teacher with the same tender smile
“Mine,” to keep just for a little while
To teach him how to be gentle and kind
To train and direct his dear little mind
To help him live by every rule
And get the best he can from school ”

“Whose child is this?” I asked once more
Just as the little one entered the door
“Ours”, said the parent and the teacher as they smiled
And each took the hand of the little child
“Ours to love and train together
Ours this blessed task forever.”

[Anonymous]

Lesson 2: Formation of Possessives

A. To show that something belongs to a person, 's is added to nouns. For example:

She drove her **father's** car. She reached her **sister's** house. Her sister Luna opened the door. She took **Sharafi's** book from the table. She found **Sadman's** room locked from inside.

Formation:

's is placed at the end of singular nouns and irregular plurals of nouns.

Singular nouns:

Muntaha received **Bani's** prize.

A freedom **fighter's** courage is very important.

Safin's friends joined him at the party.

Irregular plurals of nouns:

Children's garments are sold in that market.

Rumman is in a **men's** hostel.

- **An apostrophe is placed at the end of regular plural nouns:**

Mira is in the **girls'** hostel.

Students' representatives met the principal.

Lawyers' association protested against the administrative initiative.

- **'s is placed at the end of singular nouns ending in s:**

They visited **Sirajus's** new house.

We entered **Anis's** flat.

Only an apostrophe without 's' is also in use to avoid an unpleasant hissing sound:

They visited **Sirajus'** new house.

We entered **Anis'** flat.

- B.** Pronouns that are used to show one or more things belonging to a person are Possessive Pronouns.

Pronouns have two possessive forms:

Pronoun	Possessive Form 1	Possessive Form 2
I	my	mine
you	your	yours

C. Identify the possessives in the following story:

Two sick men were given the same room in a hospital. One man could sit up in his bed for about an hour. His bed was next to the room's only window. The other man spent all his time lying on his bed opposite the window. The men talked for hours almost every day. They talked about their wives and children, their homes, their jobs and almost about everything.

Every afternoon the man in the bed by the window would sit up and talked to his roommate about all the things he could see outside the window. The man on the other bed eagerly waited for this speaking and listening time. His friend's vivid descriptions of passing things seen through the window inspired him to live.

The window overlooked a park with a lovely lake. Ducks and swans play on the water, while children float their paper boats. A wonderful view of the skyline can be seen in the distance. The man by the window told his friend all this in detail. The listener would close his eyes and see everything in his mind's eye.

“The sky is cloudy. There may be a storm and rain within a short time. Shut the windows” said mother. “Don’t go outside at this time,” she also said. “Ok mother, we’re not going anywhere. Let’s go and hear a story from grandmother.” The kids went to their grandmother and said loudly together, “Please grandma, tell us a story of ghosts. It’s raining outside, we can’t go out to play.” Grandmother was going to say her prayers. She said, “Don’t shout! Sit here silently.” They took seats around her. She finished her prayer. Then she said to her grandchildren, “Listen attentively, I’m telling you a story about a ghost. To show your attention, say yes. Do you understand?” “Yes grandma” said the kids. “Once upon a time there were two sisters in a village beside a jungle. They lived in a hut made of bamboo and dry leaves. One day they went to the bazaar far away from their village. They bought a big Hilsha fish, a little oil and salt. Coming back from the bazaar in the evening the sisters started cooking their supper. They were frying the Hilsha. A very good smell was coming out of that fried fish. Well kids, remember what I told you.” “Yes” shouted the kids all together. “Good my dear. There was a ghost of one eye and one horn in the jungle near their hut. He was attracted by the smell of the Hilsha fry and ran towards the hut. Coming at the door of the hut he said,

“Open the door. I want to eat the fish fry.” The sisters were afraid at first to hear the crying of the ghost in nasal sound. They remained silent and looking at each other. The ghost again shouted, “Open the door, or I’ll break in.” The kids again said, “Yes!” The sisters quickly designed a plan to punish the ghost. The elder sister, Halu said to the one eyed ghost, “If you want to eat the fried fish, come to the window quickly.” The ghost was happy to follow the instruction of Halu. He came to the window. Then Malu, the younger sister, said, “Open your mouth. I’m giving the fish into your mouth.” Then the ghost opened his mouth wide enough. Halu did a strange thing. Can you guess what she did?” One of her grandchildren, the youngest one, said, “Put a piece of fish fry into the mouth of the ghost, right grandma?” She smiled to her, “You also like to have a fish fry, don’t you? But that didn’t happen exactly. Halu brought a hot fire wood and pushed it into the mouth of the ghost! The ghost started to cry by the burning. He fled away immediately towards the jungle and was shouting again and again, “I’ll never come to the hut of Halu and Malu”.

She had so many children,
She didn't know what to do.”

Ask and answer the questions:

1. Which word does the rhyme start with?
2. How is the old woman introduced to readers?

Note: 'There' is often used at the beginning of a sentence to introduce someone or something. In fact, it is used to start a sentence. Although *there* is normally an adverb of place, the *introductory there* does not have any adverbial sense and is used to introduce a sentence.

Read the sentences with introductory 'there':

1. There is a river beside the village.
2. There are many mango trees in our village.
3. There is a mosque inside the palace area.

The structure of sentences with introductory 'there' is:

We have a garden. There are many flowers in the garden. There are also some vegetable plants in the garden. The garden gives us fresh vegetables and mental pleasure. We take care of the garden.

You can start this way: There isn't any tubewell in our village.

Unit Fourteen

Infinitives, Gerunds and Participles

Lesson 1: Infinitives

A. Read the following passage and look at the underlined words:

To walk early in the morning is good for health. One can get rid of various diseases by walking regularly. It is better to walk on the riverside or in the garden. The fresh air and the green plants are good for body and mind. Many people walk early in the morning to keep body and mind healthy and fresh.

[**Note:** These are **infinitives**. An **infinitive** is the base form of a verb but it has different functions.]

Look at the following examples and see how differently an infinitive functions:

- a) *To jump* is fun. (noun; subject of the verb *is*)
- b) I like *to swim*. (noun; direct object of the verb *like*)
- c) She had a suggestion *to offer*. (adjective modifying *suggestion*)
- d) He called *to warn* her. (adverb modifying the verb *called*)
- e) We decided *to travel* there at night. (noun; object after a transitive verb)

Write more examples of infinitives.

[**Note:** the examples above are of infinitives with 'to']

Examples of infinitives without 'to':

- 1. They'll meet you tomorrow. (modal + infinitive)
- 2. Don't make us laugh.
- 3. She let her son take his own decision.
- 4. Let me conclude my opinion.

[**Note:** Infinitives without 'to' are called 'bare infinitives' also.]

B. Read the passage below and identify 'to+ infinitives' and 'bare infinitives':

A crow was thirsty. He was flying around to find water. The day was very hot. Water was not available anywhere. Suddenly the crow found a pitcher. He thought there might be water in the pitcher. But the water was at the bottom of the pitcher. The crow was wondering how to drink the water. As he began to look around, he saw some pebbles lying on the ground nearby. Seeing this, he thought of a way to use the pebbles to reach the water at the bottom of the pitcher. Then the crow picked up the pebbles with his beak and dropped them in the pitcher to make the water rise. Soon the water level was high enough for the crow to reach. Thus he was able to drink enough water to quench his thirst.

C. Write some sentences with infinitives with/ without 'to'.

Lesson 2: Gerunds

A. Read the following passage and look at the underlined words:

Swimming is a good exercise. It is also a very useful skill for safety. It is an interesting sport. One must practice swimming to enjoy the sport. One should not get down into water immediately after eating. There is a chance of drowning if you get down in water after eating. Floating on the water is an enjoyable game. It is also an important life saving skill. This skill may save us from drowning. It is necessary to learn swimming by taking help of a trainer.

Note: These are gerunds. A **gerund** is the present participle form of a verb (verb+ ing) which works like a noun.

B. Read the passage below and underline the gerunds:

Travelling is a good practice to acquire knowledge and experience. Visiting many places, we can be familiar with different geographical and cultural features. Those who travel for sight-seeing prefer to visit places which are unusual to them. They may go hiking or sailing. In our country the winter season is best for travelling. Driving long in this season is comfortable and safe.

A gerund can take different positions in a sentence.

Look at the following sentences:

- Eating much is harmful.
- Driving too fast is dangerous.
- Walking is a good exercise for everybody.
- Her knitting is beautiful.

In these sentences, the gerund is the subject.

A gerund can be used as the object in the sentence.

For example:

- I didn't mind joining the music competition.
- She likes sleeping in the afternoon.
- I enjoy reading and writing.
- He finished playing at 9 o'clock.

Gerund after preposition:

1. I have no objection to walking.

C. Make sentences with the following gerunds:

Dancing (as subject), praying (after a preposition), watching (as object), shocking (as object), meeting (as subject), sleeping (after a preposition), fasting (as subject), surfing (as subject), typing (as object), closing (after a preposition).

Lesson 3: Participles

A. Read the following passage and look at the underlined words in different positions:

The dancing peacock displayed his feathers. The people who gathered there enjoyed the show. Peacocks are found displaying feathers when it rains. So it is a rare opportunity to see a peacock dancing and displaying feathers. Peacocks are found dancing in the open space in front of the forest. We are charmed by their dancing.

Note: These are participles. A **participle** is a verb that ends in *ing* (present participle) or *ed, d, t, en, n* (past participle). Participles may function as adjectives describing or modifying nouns. See more examples:

The talking parrots entertained the crowd. (present participle)

The wrecked sailboat washed up on shore. (past participle)

Note: But participles have another function. When used with helping verbs such as *to be* and *to have*, they are action verbs and form several verb **tenses**.

Example:

1. She is thinking of the children.
2. The conference room had been cleaned before they arrived.

To make his dream real he tried heart and soul. He got Advanced Mountaineering Training from Himalayan Mountaineering Institute, Darjeeling, India. He was a journalist by profession. He worked as a sub editor in The Daily Star. He founded Everest Academy in 2011 for a wide participation of the youth in the mountaineering and adventure activities.

Note: The underlined words start with capital letters (upper case). Other words begin with small letters (lower case). There are rules to use capital letters in English. The use of capital letters is called **capitalization**.

B. Use of Capital letters:

- A sentence begins with a capital letter. For example:

We want to learn English capitalization rules.

These students are learning English as a foreign language.

The sky is cloudy.

- The first word of a quoted sentence begins with a capital letter.

Teacher said, “**A**lways speak the truth.”

- Proper nouns begin with capital letters. (Names of people, specific monuments, cities, states, etc.). For example:

Mr. Tarek asked if **A**li would help.

Uncle **B**ill took us to **D**allas.

- A person's title begins with a capital letter when it comes before his or her name (**Dr.** Rehana)
- The position of high-ranking government officials begins with a capital letter. (for example, **P**resident Bill Clinton, **A**ttorney General Shahed)
- The pronoun **I** is always capitalized whenever it is used. For example:

I want to go to Sylhet.
My sister and I are in the same class.

- The first and any important word in the title of a book, magazine, song, movie, poem, or any other work begins with a capital letter. For example:

Read the first chapter of ***G**ulliver's **T**ravels*.

D. Punctuation

Read the following passage:

Once a lion, a fox, and a wolf went hunting. They ultimately spotted a stag and killed him for their food. While sharing the hunt, "Quarter me this stag", roared the lion and other animals skinned and cut the spoil into four equal parts.

Note: In the passage there are some marks with the words. These marks help us to understand the passage. These marks are the punctuation marks.

Punctuation Rules:

Apostrophe (')

Examples: 1. She can't join the party. (cannot)

2. Hon'ble President (Honourable)

3. Girls' school

4. This is Karim's house.

Note: To indicate omission of letters and the genitive case of nouns (') is used.

'Period' or 'full stop'

1. A complete sentence that makes a statement or command ends with a period. In British English a period is called a 'full stop'.

Today is my birthday.

Blow out the candle.

He went to Khulna last week.

2. Most abbreviations end with a period.

Dr. Smith lives on Creek Rd. near St. Mary's Hospital.

Question Mark (?)

1. A question ends with a question mark.

When is she coming?

Are you Pollobi Khisa?

Exclamation Point (!)

1. The exclamation point is used at the end of a sentence to indicate great surprise. It is also used for emphasis when making a point (strong feeling / excitement).

Be careful not to use the exclamation mark too often.

What a wonderful day it is!

That ride was fantastic!

I can't believe he is going to marry her!

Comma (,)

1. A comma separates things in a series (List of items):

I ate rice, vegetables, and fish.

I like reading, listening to music, taking long walks, and visiting my friends.

This is one of the most common uses of a comma. Notice that a comma is included before the conjunction 'and' which comes before the final element of a list.

2. A comma separates an interruption from the rest of the sentence:

Mr. Walker, our teacher, is very clever.

3. A comma separates two independent clauses that are connected by a conjunction such as 'but':

They wanted to purchase a new car, but their financial situation would not allow it.

I would really enjoy seeing a film this evening, and I'd like to go out for a walk.

4. A comma separates phrases (or clauses) from the principal clause:

In order to pass the exam, you need to study more.

Although he wanted to come, he wasn't able to attend the course.

5. A comma introduces a direct quote:

The boy said, "My father is often away during the week on business trips."

His doctor replied, "If you don't stop smoking, you run the risk of a heart attack."

Colon (:)

1. A colon shows the reader that a list or explanation follows:

I will need the following items: scissors, paper, glue, and paint.

He had many reasons for joining the club: to get in shape, to make new friends, to lose some weight, and to get out of the house.

2. To introduce a direct quote (a comma can also be used in this situation):

He announced to his friends: "I'm getting married!"

She cried out: "I never want to see you again!"

Semicolon (;)

There are **two uses** for a semicolon:

1. To separate two independent clauses. One or both of the clauses are short and the ideas expressed are usually very similar.

He loves studying; he can't get enough of school.

What an incredible situation; it must make you nervous.

2. To separate groups of words which are themselves separated by commas:

I took a holiday and played golf, which I love; read a lot, which I needed to do; and slept late; which I hadn't done for quite a while.

They plan to study German, for their travels; chemistry, for their work; and literature, for their own enjoyment.

Warning: Do not use a capital letter after a semicolon, unless it is followed by a proper noun.

Quotation Marks (double " or single ')

1. Quotation marks are used to identify the exact words of a speaker:

President Bush said, "We will not tire, we will not falter, and we will not fail."

2. For a speech within a speech, the other style is used as inner quotation marks:

'Dave said, "Good afternoon, Frank" , recalled Frank.

Warning: Place the punctuation marks outside quotation marks, unless they are logical parts of the quotation.

His answer to this was "no"; but two years later, he changed his mind.
Did he say "yes" or "no"?

- E. Rewrite the following passage using capital letters and appropriate punctuation marks:

rip van winkle stopped by a place where there had been a school and asked the crowd that had gathered where is schooner, the school master somebody said oh schooner he went to war in sixty three and never came back and van ammel asked rip van winkle he died eighteen years back said another voice in the crowd rip van winkle thought he was going mad had he slept all these years on the mountain finally rip van winkle asked does anyone here remember rip van winkle a very old woman said yes he was my lazy son he went up the mountains twenty one years back but never returned His dog came back without him rip van winkle was overjoyed he said mother it is me rip van winkle dont you recognize me oh my son it is really you where have you been all this while mother and son hugged each other. rip van winkle had indeed slept for twenty-one years.

Unit Sixteen

Direct Speech and Indirect Speech

Lesson 1: Statements

A. Read the following passage:

Maria said to her mother, "I am unwell. I am feeling feverish. But I have done all my homework." Maria's mother said, "I have already prepared the breakfast. You will take rest after your breakfast." Maria said, "Mothers are always caring."

In the passage above, the exact words of the speakers are put within quotation marks. Such words make a **direct speech**. When a direct speech changes into an indirect speech, it undergoes some changes.

Now notice the changes:

Maria told her mother that she was unwell. She also said that she was feeling feverish. But she had done her homework. Maria's mother said that she had already prepared the breakfast. She then said that Maria would take rest after having her breakfast. Then Maria said that mothers are always caring.

This is an example of indirect speech.

In a direct speech we say exactly what was said by the speaker. But in an indirect speech someone reports in a different way what was said by the speaker.

Read the following examples to see how a direct speech changes into an indirect speech:

He **said**, "I teach in a school"

(Direct speech)

He **said** that he taught in a school.

(Indirect speech)

They **said**, “We are going to the cinema.” (Direct speech)

They **said** that they were going to the cinema. (Indirect speech)

Note: If the reporting verb (here ‘said’) is in past tense, the tense of the direct speech will change in the indirect speech.

See the changes in the following examples:

He said, “I want the book. ”

He said that he wanted the book.

The simple present changes into simple past.

She said, ‘I am coming.’

She said that she was coming.

The present continuous changes into the past continuous.

He said, “I have completed the task.”

He said that he had completed task.

The present perfect changes into the past perfect.

But if the reporting verb is in the present tense, the tenses in the direct speech do not change.

He says, “I am leaving.”

He says that he is leaving.

We use inverted commas to mark off the exact words of the speaker. In the indirect speech, we do not use inverted commas. In changing the above direct speeches into indirect, certain other changes have been made. Such as:

- i) We have used “that” after the reporting verbs.

- ii) Change in time: Time is changed according to certain rules like *now* to *then*, *today* to *that day*, *tomorrow* to *next day* and *yesterday* to *previous day*.

Here is a table of some conversions of time.

now	then / at that time
today	yesterday / that day
yesterday	the day before yesterday / the day before
last night	the night before
last week	the week before / the previous week
tomorrow	the next day / the following day

B. Now rewrite the following in indirect speech:

1. *Maria said to her mother, 'I have got 10 out of 10 in mathematics class test. I am very happy. My teacher became very happy. I'll do my homework regularly. Then I'll get good marks in every subject.'* Mom said to Maria, *'Practice makes a man perfect'*.

2. Give examples of the mentioned tenses and complete the table. One is done for you:

Simple Present I attend my classes regularly.	Past Simple:
Present continuous:	Past continuous
Present Perfect:	Future perfect:

- c. Change the following sentences into indirect speeches:

- a. I say, "I want to sleep."
- b. He says, "I like mangoes".
- c. You said, "I will meet my teacher."
- d. They said, "We are starting now."
- e. Mother said to me, "I was waiting for you for a long time."
- f. Maria says, "My father is an Engineer."
- g. He said, "I have passed the math test."
- h. She said to me, "You are my only friend."
- i. He said, "I have got a bad headache."
- j. Meena said, "I am very busy now."

Lesson 2: Questions

A. Read the following passage:

Mother said to Maria, "Are you hungry?" She also said, "Did you finish your tiffin at school?" Maria said, "Yes". Then mother asked again, "Do you want to take sandwich tomorrow?" Then Maria said to her mother, "What are you doing now?" She also asked "Why are you looking so tired?"

Now look at the changes of these questions into indirect speeches:

Mother asked Maria if she was hungry.

She also asked her whether she had finished her tiffin at school.

Mother asked again if Maria wanted to take sandwich the next day.

Maria asked her mother what she was doing then.

Maria asked her again why she was looking so tired.

Note: To report a **Yes/No question**, we use **if** or **whether** but in case of **'wh'** questions the question word is retained in the indirect speech.

Notes:

- i) If the direct speech is a question, the reporting verb in the indirect speech is changed into "asked".
- ii) In an indirect speech the question turns into a statement and the verb goes after the subject like *she was*, *she had*, *she wanted*. So use no question mark.

B. Change the following sentence into indirect speech:

Robi said to Maria, "Why are you crying? What makes you so upset? Is there anything wrong with your classmates? Have you got punishment in school?"
Maria said, "Why are you so anxious?"

C. Change the following sentences into indirect:

- a. Maria said to her mother, "Do you always get up early?"
- b. The teacher said to Maria, "Who were you waiting for?"
- c. I said to you, "What do you want?"
- d. The policeman said to him, "Are you in a hurry to cross the road?"
- e. Jaya said to the watchman, "Did you find the key anywhere?"
- f. Kamal said to the driver, "Can you take me to the lawyer now?"
- g. You said to me, "Why are you wasting your time?"
- h. She said to you, "When will you start from New York?"
- i. I said to my brother, "Where were you this morning?"
- j. He said to me, "Do you like music?"

Lesson 3: Imperatives

A. In our daily life we find ourselves in various types of situations. In different situations, our expressions vary. In school, Maria's teachers command her to perform her work. Sometimes it is a direct command. Sometimes it is a request. In direct commands and requests, we use the 'base' form of the verb. When we change them into indirect forms, we use words like 'tell' (for commands), ask, request or beg (for requests).

Look at the following sentences:

Maria's teacher said, "Maria, open the window."

The teacher told Maria to open the window.

The teacher said, "Maria, bring a marker please." (Direct request)

The teacher requested Maria to bring a marker. (Indirect request)

There are other situations when we have to use some other words. Now we will see some more words for indirect expressions.

It was very cold and Maria's mother became worried for Maria and told her to wear warm clothes. Mother said to Maria, "Do not go out without warm clothes." Maria said to her mother, "Let us go inside the car." Then mother said, "Let me bring the warm clothes first." Mother brought the clothes and they started for their aunt's house as it was a fine holiday.

Look at the changes now:

Maria's mother forbade Maria to go outside without warm clothes. Maria proposed that they should go inside the car. Mother then proposed that she should bring the warm clothes first.

Sometimes we use 'advice' or 'urge'. If Maria's teacher says, "Obey your parents", then we change it in this way:

Maria's teacher advised her to obey her parents.

Again the teacher said to the class, "Keep quiet."

The teacher urged his students to keep quiet.

B. Read the speech and write a rule to change it:

The teacher said, "Be regular in the classes."

2) Use the correct form of the verbs in the box to fill each gap in the following sentences. Use each verb once:

<u>request</u>	1. Rumi _____ Rubi to tell a lie.
<u>ask</u>	2. Maria _____ her mother to give her the towel.
<u>advice</u>	3. The teacher always _____ the class to be punctual.
<u>urge</u>	4. Mother _____ Maria to have a walk every morning.
<u>propose</u>	5. The leader _____ his people to work for the development of the country.

C. Change the following sentences into indirect:

- a. Father said to me, "Get on your feet."
- b. The teacher said to me, "Open your notebook."
- c. Ruma said to her brother, "Stop making a noise."
- d. The officer said to us, "Do not park here."
- e. Meena said to her mother, "Please wait for me."

Lesson 4: Optatives

A. The sentences which express hope, prayer or wish are called optative sentences.

If the direct speech begins with the word “would”, we change the reporting verb into “wished”.

Mother said to me, “Would that your father were here today.”

Mother wished that my father had been there that day.

The teacher said to the students, “Would that I were on leave today.”

The teacher wished that he had been on leave that day.

He said, “Would that I were rich.”

He wished that he had been rich.

B. To change optative sentences into indirect speech, we have to follow the following rules:

When the direct speech starts with the word ‘**may**’, the reporting verb ‘**say**’ is replaced by the word ‘**pray**’.

When the direct speech starts with the word ‘**would**’, the reporting verb ‘**say**’ is replaced by the word ‘**wish**’. ‘**May**’ is changed into ‘**might**’.

Mother said, “May my son stand first in the class.”

She prayed that her son might stand first in the class.

He said to them, “May you prosper in life.”

He prayed for them that they might prosper in life.

They said. “May the police arrest the thieves.”

They prayed that the police might arrest the thieves.

Note: In the Indirect Speech, the optative sentences become assertive sentences.

More examples :

Direct Speech	Indirect Speech
Maria said to her aunt, "May you live long."	Maria prayed that her aunt might live long.
My mother said to me, "May you succeed in the test."	My mother prayed that I might succeed in the test.
Uncle said to Maria "Best of luck."	Uncle wished Maria best of luck.

C. Change the following passage into direct speech:

It was Maria's birthday. Everybody wished her happy birthday. Her parents wished many happy returns of the day. Grandma prayed that Maria might succeed in life. Maria also prayed that Allah might bless them all.

D. Change the following sentences into indirect:

1. She said, "May you succeed in the examination."
2. He said, "May God bless you with success!"
3. The beggar said to him, "May you prosper in your business!"
4. The old lady said to her, "May you live long!"
5. People said, "Long live our Prime Minister!"
6. The Priest said to the lady, "May God bless you with a lovely son!"
7. He said, "May you ever be happy!"
8. She said, "May you ever smile."

Lesson 5: Exclamatory Sentences

A. Maria and her mother reached Maria's aunt's house.

Read the following text:

Maria's aunt said to them, "Good afternoon. I hope Maria's father is coming soon." Maria joined her cousins. They said, "What a nice afternoon it is!" They started to play. They were in two groups. Maria's cousin, Robi, was the leader of a group. They played carom. Robi's group won the game. They said, "Hurrah! We have won the game." Maria said, "Alas! How foolish I have been." Maria's aunt is a good lady. She came to them and said, "Bravo! You all have done well." After spending the whole evening Maria's family had their dinner with their aunt, uncle and cousins. Then it was the time of departure. Maria and her parents said, "Goodbye everybody."

Now read the indirect speech and see how the changes are made:

Maria's aunt wished them good afternoon and also said that she hoped Maria's father was coming soon. When Maria joined her cousins they exclaimed that it was a very beautiful afternoon. Then they started playing carom. Maria's cousin, Robi was the leader of a group. Robi's group won the game and shouted with joy that they had won the game. Then Maria exclaimed with grief that she had been very foolish. Maria's aunt applauded all saying that they all had done well. At the time of departure Maria and her parents bade everybody goodbye.

B. Look at the sentences and write a rule to say where the subject and verb come in an exclamation:

How naughty the boy is!

How sweetly she sings!

How beautiful the weather is!

How fast she runs!

What a wonderful invention it is!

What a lovely face she has!

C. Change the following sentences into Indirect Speech :

- a. The woman said, "What a beautiful child this is!"
- b. His aunt said, "What a pleasant surprise to see you here!"
- c. Hamlet said, "How unlucky I am that I cannot find out any solution!"
- d. The captain said, "Bravo! Well done, boys."
- e. The leader said, "Alas! We have lost the game."
- f. Boys said," Hurrah! We have won the match."
- g. She said, "What a beautiful bird it is!"
- h. Father said, "What a lazy fellow she is!"
- i. The cobbler said, "How stupid I am!"
- j. The girl said, "What a stupid fellow I am!"

Unit Seventeen

Voice

Lesson 1: Statements

A. Read the following passage:

Robi is reading a story book. The book is written by a famous writer of Bangladesh. Robi likes stories about the freedom fighters in the book. Our freedom fighters are honoured by the whole world. They sacrificed their life for our motherland.

There are two types of sentences in the above passage.

Notice the sentence :

Robi is reading a story book.

Subject verb object

It is in the active voice. The subject here is the doer of an action.

Notice the sentence:

The book is written by a famous writer of Bangladesh.

Subject verb doer of the action

It is in the passive voice. The subject (the book) here is the 'receiver' of the action. It does not perform any action.

More examples:

Active: The ball hit Jessica.

Passive: Jessica was hit by the ball.

Active: Jahid wrote a letter.

Passive: The letter was written by Jahid.

Active: John took a picture.

Passive: A picture was taken by John.

Note : To change an active sentence into a passive one:

a) If we want to specify who is the 'doer' in a passive sentence, we use 'by' after the main verb in an assertive sentence and then mention the agent.

For example:

Active : Mira broke the glass.

Passive : The glass was broken by Mira. (by +agent)

Structure:

Active sentence: subject + verb+ object

Passive sentence: subject+be + past participle + by + agent

b) *Sometimes agents are not mentioned in the passive voice. For example:*

Active : People speak English all over the world.

Passive : English is spoken all over the world.

B. Look at the following changes. If there are pronouns as subject in the active voice, they change their forms in the passive voice.

Active Voice	Passive Voice
I	me
we	us
you	you
he	him

Active Voice	Passive Voice
she	her
it	it
they	them

Some sentences have a direct and an indirect object. Rewriting an active sentence with two objects in the passive voice means that one of the two objects becomes the subject, while the other one remains an object. Which object you will change into the subject depends on what you want to put the emphasis on.

We can change it in two ways:

Active : The teacher taught us English.

Passive : i) English is taught to us by the teacher.

ii) We are taught English by the teacher.

Active : Mother told me a story.

Passive : i) A story was told me by mother.

ii) I was told a story by mother.

More examples:

	Subject	Verb	Object 1	Object 2
<i>Active:</i>	Rita	wrote	me	a letter.
<i>Passive:</i>	A letter	was written	to me	by Rita.
<i>Passive:</i>	I	was written	a letter	by Rita.

Note:

The object of the active verb becomes the subject of the passive verb. Therefore, sentences which do not have an object cannot be changed into the passive. The following sentences, for instance, cannot be changed into the passive because they do not have objects:

The old man sat on the floor.

The child sleeps.

The wind blows.

The dog barks.

Fire burns.

He laughed aloud.

C. Read the following passage and underline the active and passive verbs:

The Sonargaon folk museum was built in the area named Narayangonj. It has been artistically decorated for the visitors. It stores many archaeological things including Bronze statues and caskets, terracotta plaques, utensils, coins, jewelries, pottery etc. They have a great historical value. The government has taken many steps to enhance the facilities for the visitors.

D. Use the following verbs in active and passive forms:

touch, invite, decorate, touch, break, request

E. Change the sentences into the passive voice. Mention the tense of the verb.

Our new teacher teaches us English. Now, he is teaching us a new lesson. We have completed the lesson on paragraphs. We are practicing the new lesson. Our teacher taught us the skills of learning language. Last week we were practicing pronunciation. We had learnt the uses of articles before we learnt the rules. We will write a paragraph tomorrow.

Lesson 2: Interrogative Sentences

- A. An interrogative sentence in the active voice will remain interrogative in the passive voice. We form passive questions by putting the auxiliary verb before the subject (according to the tense). Then we place the subject and the past participle form of the main verb.**

The following example shows how the voice of interrogative sentences is changed:

Does your brother draw a picture?

Is a picture drawn by your brother?

If the question in the active voice begins with an auxiliary verb, the passive voice must also begin with a suitable auxiliary verb. If the question begins with a 'wh' question word (what, when, how ...), the passive voice must begin with the same.

Look at the following changes:

Active Voice	Passive Voice
Are you reading a book?	Is a book being read by you?
Has she cooked the food?	Has the food been cooked by her?
Will you close the door?	Will the door be closed by you?
Who broke the glass?	By whom was the glass broken?
Why did you write such a letter?	Why was such a letter written by you?
Where can you keep the box?	Where can the box be kept by you?

Where can you keep the box? Where can the box be kept by you?

Passive structure: (question word) auxiliary verb+ object of the active verb + past participle form of the main verb + by + subject of the active verb

Change the following sentences into the passive form :

1. Do you write a letter?
2. Did you receive my letter?
3. Which newspaper do you read?
4. Does she do her duty?
5. Will she make candles?

Part II

Composition

Unit Eighteen

Writing Paragraphs

What is a paragraph?

A. Look at the following short composition :

A Magnificent Place to Visit

The Sundarbans is a wonderful place to visit because of its variety of animals and trees. Visitors to the Sundarbans can find many different types of animals. They can find fierce tigers in the dense forest; also they can find timid deer beside the streams. They can find places which are very charming for their greeneries. Thus visitors can find the varied wildlife in the forest. They can find mangroves and low dells. They can also find its beautiful rivers and a beautiful coast. So the Sundarbans is one of the most wonderful places to visit for its natural beauty.

This is a paragraph. A paragraph is a group of sentences organized around an important topic. The sentences in a paragraph are connected with each other.

A paragraph usually consists of one topic sentence, some developers (supporting sentences), and a terminator (a concluding sentence).

1. **Topic Sentence:** The central idea of a paragraph is called the topic. The topic sentence introduces the main idea of your paragraph.
2. **Developers:** The developers are the sentences placed between the topic sentence and the last sentence in a paragraph. They develop the topic sentence through elaboration, exemplification, classification, and so forth. That is, they expand and support the idea stated in the topic sentence.

3. **Terminator:** The terminator is the last sentence in a good paragraph. It logically concludes the ideas developed through the developers of the paragraph. In other words, the terminator can restate the ideas put in the topic sentence. It can also present a quick summary of what has already been discussed. Actually, the terminator completes the writer's description of the subject or topic.

In the above paragraph the first sentence introduces the central idea. So, it is the topic sentence. The next six sentences support the topic sentence; they are the developers. The last sentence restates the idea of the topic sentence and completes the writer's description. So, it is the terminator.

Now we will learn how to develop a paragraph by answering questions.

Write a paragraph on 'your mother' answering the following questions:

How old is your mother?

What is her occupation?

How many brothers and sisters do you have?

What does your mother do for you in the whole day?

What are your duties to your mother?

My Mother

My mother is a wonderful person. She is about 38 years old. She is a school teacher. She comes from a respectable family. She is sober and affectionate. I have one brother and one sister. I am the youngest. Mother takes great care of our education, food and clothing. Her anxiety knows no bound when any of us becomes sick. My mother says her prayers regularly. Every now and then, she cooks delicious food and prepares different kinds of sweets. She keeps the

house neat and clean. She always gives us good advice and suggestions. She advises us not to quarrel with anybody, not to steal and never to tell a lie. She tells us to love our country and our relatives. I always try to help my mother in her work. We should obey and love our mother as she is doing her best for us. To me, she is the best person.

A bus stand is a very important place to those who travel by bus from one place to another. It is a place where buses stop for some time to help passengers to get in and off. Especially the bus stands in a city or town always remain busy. Passengers are always found waiting there. When a bus stops at such a stand, there is an unusual bustle and hurry among the passengers. Some others hurry to get down from the bus, while passengers waiting for the bus want to get into it. As a result, there is always a great rush of passengers. In such a situation the old and the weak find it difficult to get into or get off the bus. The scene often goes so far that passengers seem hostile with one another. Taking advantage of this situation pickpockets sometimes pick the pockets of the passengers. Moreover, shouts of conductors, bus-helpers make the place noisy. These are

the usual sights of a bus stand during the busy hours of the day. Besides, hawkers are often found busy selling their goods like cigarettes, betel-leaves, newspapers, fruits and so on. A bus stand is always a busy place.

A sparrow, peeping through my window, is something that makes me very happy. Every morning, when I wake up, I see the sparrow, playing in the tree, outside my window. I have been hearing its sound ever since I was a child. So it has become my favourite bird. The sparrow has a brown and white body with a tiny head. This makes it a lovely and sweet bird. It has a short, strong and sharp beak, which helps it to collect food and make nests in trees and in the corners of the houses. It likes to live in ventilators of a house, where it builds its home. It gathers tiny and light material for its home. It eats insects and worms. I hope Mr. Sparrow continues to visit my window every day of my life.

How to Make a Garden

To make a garden you have to follow certain procedures. First, select a suitable piece of land. It can be in front of your reading room. Shovel, loosen and level the soil with a garden spade. Next, fence the land so that naughty boys and animals are unable to harm it. After that you should sow the seeds of different flowers of different seasons and plant many kinds of flower plants in it. Good seeds and plants are needed for a healthy garden. Finally you should work in the garden every morning and afternoon. Water the plants frequently. Weed your garden regularly to keep it neat and clean. Apply manure to the plants regularly to keep the soil fertile. Use pesticides so that harmful insects cannot do any harm to the plants and flowers. In city life, pot planting is a common way for city dwellers to have their gardens in a small space. - a) What is perseverance?
- b) How do you acquire perseverance?
- c) Why should we practice perseverance?
- d) What should we do to practice perseverance?
- e) Name a great person who practiced perseverance in life.

Perseverance

Perseverance means persistence in doing something despite difficulty or delay in achieving a goal. To develop the quality one requires regular practice of it.

Only a patient person with a strong determination can achieve his goal by perseverance. When a child learns to stand up and tries to walk, he is found to fall down again and again. But at one time he succeeds in walking. Similarly, a man having perseverance can succeed in life in spite of his repeated failures. A persevering person has tremendous self-confidence, indomitable determination, and a natural urge towards hard labour which paves his way to success. In spite of having intelligence and genius, he can hardly prosper in life if he is averse to diligence. In this world, all the great things have been possible only by perseverance. Shakespeare did not compose his voluminous works just in a day. He had to work hard days and nights with tremendous perseverance. In every sphere of life perseverance is the root of success and glory. Therefore, perseverance must be practiced from the very childhood so that this noble habit becomes a part and parcel of one's life.

building materials dumped on the roads. There are many unauthorised roadside shops. Often because of political meetings and processions, roads are blocked. There is a tendency with drivers to overtake and disobey traffic rules. Slow-moving and swift-moving vehicles race with each other. These also cause traffic jams. We are destroying our tropical rain forests and growing industries, mills and factories, using CFC gas at present. Thus, we are polluting our environment. For the destruction of forests and cutting down of trees, the amounts of carbon dioxide are increasing. The increased amounts of carbon dioxide around the earth have made a layer in space. The sun rays are coming through the layer but the heat cannot pass through the layer. This is why the heat is being confined on earth and it is making our globe warmer. As a result,

the heat of the world is increasing day by day. It has made ecologists think about the alarming consequences. We should stop the pollution of the environment and save our living place from global warming.

Man is living both in cities and villages. Cities have prospered but the importance of country life has not lessened. In this modern competitive world, needs in city life have increased because most of the modern facilities are still found in the cities. The development of the society depends both on the development of cities and villages. Cities produce useful things with the raw materials supplied by the villages. In the cities, life is very hectic and competitive and people live in a programmed environment. On the other hand, in the villages, environment is fresh and easy. Modern facilities are available in the cities only. Most of the villages lack modern facilities. For good medical facilities and higher degrees, people have to go to the cities. In the cities, people lead an artificial life in gigantic buildings. But in the villages, one can lead a humble life in the lap of nature. Despite various merits and demerits, both lives have their charms. We can improve our society by developing both cities and villages.

Letter Writing

Letter writing is an important activity in our daily life. It is a popular means of communication. Letters are one of the oldest modes of communication used by humankind. A letter is a written message from one person to another. There are two types of letters: **formal letters** and **informal letters**. A formal letter is a letter that is written in the formal language with a specific format for a business or official purpose. In simple terms, this is a letter written for professional communication. This is also sometimes called a business letter. A formal letter can be a letter of enquiry, a letter of request, or a letter of complaint. A formal letter is written to a teacher, a principal or to an office. On the other hand, an informal letter is written to friends and relatives. Now-a-days, emails are considered to be an effective medium of communication. Like a letter an email can also be formal and informal. It depends on your recipients and on the type of your message and purpose. Emails are messages which are distributed by electronic means from one computer user to one or more recipients via a network. In this unit we will discuss how to write formal letters and emails.

Formal letters:

Read the following letter and notice its language and format:

June 15, 2016

On behalf of the students of Class Seven

Young Heart School

Neera, Sanjana and Meena (on behalf of the students of class VII)**Note :**

In formal letters messages need to be precise and detailed, covering all the required information. Letters of this kind need to be very specific. Opinions should be clearly made. Requests for action should be clearly indicated. Reading the letter, everyone should know exactly what the sender is asking. There are various types of formal letters including leave application letters, apology letters, job applications, complaint letters, letters to the editor and so on.

A formal letter usually begins with the date and address of the recipient that should be written in the top left-hand corner of the letter.

After that the subject is written in bold. If the letter is hand-written, the subject should be underlined.

Next is the salutation section. In this line, if you do not know the recipient's name then it is ideal to address them as Dear Sir or Dear Madam.

Main section is the content that conveys sender's message clearly. A message can be in the form of requests, complaints, enquiry, information and so on. The content of your letter should be as short as possible, divided into short and clear paragraphs.

Further, the letter ends with closing remarks, promises, or suggested actions.

The closing of a formal letter should express gratitude and sincerity.

Examples of formal letter closings: **Best wishes, many thanks, thanking you, sincerely yours, respectfully yours.**

Write your name directly below this and then put your signature above it.

In an email all these steps should be followed.

Subject : Application for a full free studentship

Respected Sir,

I am a regular student of your school. I would like to inform you that the financial condition of my family is not good and it is hard for my father to meet the minimum household expenses. So, I cannot afford to pay the school fee. Hence, I request you to grant me a full free-studentship on humanitarian grounds to enable me to go on with my studies.

I would be grateful to you if you consider my case with a sympathetic outlook and help me to study further.

Thanking you.

Yours faithfully,

The Chairman

Dhaka South City Corporation Nagar Bhaban

Subject: **Complaint about irregular water supply**

Sir,

This is to draw your attention to the irregular water supply in the Paribagh locality. In the morning the water supply is for only half an hour instead of the regular three hours. In the evening, sometimes there is no water supply and when water is supplied, it is for just fifteen minutes. At times, the water is so dirty that it cannot be used for drinking purposes. As a result, there is an acute crisis of drinking water. We have already made many complaints to our local authority regarding this inconvenience of the residents of the locality. They are always giving us empty promises and doing nothing. You are kindly requested to look into this matter seriously and solve the problem.

We are looking forward to your positive response.

Thanking you.

Sincerely yours,

Soheli, Sonam and Adnan (on behalf of the people of Paribagh)

9. Write an e-mail to the editor of a local newspaper informing him about the traffic jam you face daily:

From : rawnie201@yahoo.com

To : editor.observer@gmail.com

Subject : Intolerable traffic jam in Dhaka city

Sir,

Through the columns of your esteemed daily, I venture to voice my views about the intolerable traffic jam in Dhaka.

There is hardly anybody found in Dhaka who did not face the unbearable traffic jam. This has happened actually for the enormously increasing number of rickshaws and private cars. Here we see sometimes hundreds of different vehicles standing still. Especially office going people and students become victims to this terrible traffic jam. They have to miss their most important meetings and classes. But among all, patients suffer most while they are badly in need of medical treatment. Many patients die every day being stuck in traffic jams.

Nobody can avoid the responsibility of solving this problem as a dweller of Dhaka city. Through this small letter I would like to draw attention not only of the government but also of the people who live in Dhaka. Without working hand to hand with the government, it is quite impossible to

minimise the sufferings of common people. Last of all, I can say that an effective and planned action can play a vital role in these circumstances.

Rawnie,

Malibagh, Dhaka- 1201

Guidelines for question setters and markers for English

1. Multiple Choice Questions (MCQ)

MCQ can be set for testing a number of strategies and skills related to reading such as scanning, skimming, reading for gist, inferencing (guessing the meaning from the context) comprehension check etc. Each MCQ item will carry $\frac{1}{2}$ mark. However, depending on the level of difficulty some items may have 1 mark as well.

In preparing MCQ item, question setters will make sure that learners have to apply certain skills or strategies of reading in order to be able to choose the right options. Depending on the level of the learners, items will be set to test learners' lower order thinking skills (knowing and understanding) as well as higher order and more critical thinking (analyzing, synthesizing, and evaluating). Use synonyms in the questions to avoid quoting directly from the original passage. Make the questions a bit round about so that learners think.

For example :

Text : The Great Wall of China, one of the greatest wonders of the world, was first built between 220-206 BC.

Question : When was the Great Wall first built? (Don't make this type of question. Student will just get the answer from the question paper as 'was নির্মিত' is common in both the text in the question paper and the answer.)

Question : What is the initial construction period of the Great Wall? (This question is Okay as learners has to understand that 'was built' and 'construction period' are same.)

Students will write the question number and then write only a/b/c/d that refers to the correct answer. Whole sentence from the question paper is not required.

The same text can be used for guessing the meaning from the context and Question Answer (open ended and close ended). However, the same text **cannot** be used for Question-Answer and True/False. Depending on difficulty level and text length, information transfer and True/False questions can be set from the same text or from two different texts. Two different texts are preferred to a single text.

Please note the following points while setting MCQ test items :

- Phrase stems as clearly as possible. Confusing questions can generate wrong answers from students who do understand the material.

- Avoid redundant words and phrases in the stem. Extraneous details make a question more complex and less reliable.
- Include any language in the stem that you would have to repeat in each answer option.
- Options should be similar in length and structure.
- The number of answer options should not be more than four.
- Distracters must be incorrect, but plausible. Try to include among the distracters options that contain common errors.
- To make distracters more plausible, use words that is familiar to students.
- If a recognizable key word appears in the correct answer, it should appear in some or all of the distracters as well. Don't let a verbal clue decrease the validity of your exam.
- Avoid using extreme or vague words in the answers. Use rarely extreme words like *all*, *always* and *never* or vague words or phrases like *usually*, *typically* and *may be* in the answers.
- Avoid using *All of the above* or *None of the above* as an answer choice.

In designing MCQs the following class wise guidelines have to be followed.

MCO for grades 6 and 7

Altogether 10 MCQs will be set. Each MCQ will have $\frac{1}{2}$ mark (or half mark) for a correct answer. There should be 6 MCQs on vocabulary test (guessing meaning from the context) and 4 MCQs on answering questions (scanning for specific information, search reading, deducing the meaning of unfamiliar words). Thus the marks distribution will be:

Vocabulary $\frac{1}{2} \times 6 = 3$

Questions $\frac{1}{2} \times 4 = 2$

Total = 5

2. True/False

True-false questions are typically used to measure the ability to identify whether statements of fact are correct. The questions are usually a declarative statement that the student must judge as true or false.

Follow the general guidelines below while writing True/False items for your students:

- Base the item on a single idea.
- Write items that test an important idea.
- Avoid lifting statements right from the text.
- Make the statements as brief as possible.
- Write clearly true or clearly false statements.
- Try to avoid such words as *all, always, never, only, nothing, and alone*.
- The use of words like *more, less, important, unimportant, large, small, recent, old, tall, great*, and so on, can easily lead to ambiguity.
- State items positively. Negative statements may be difficult to interpret. This is especially true of statements using the double negative. If a negative word, such as "not" or "never," is used, be sure to underline or capitalize it.
- Beware of detectable answer patterns.

3. Matching

There is no need of a separate reading text for matching. The question itself will have a context after the texts in part A and part B are properly matched. The numbering of texts in column A can be i, ii, iii, iv, and the texts in column B can be a, b, c, d, Students only need to match the numbering in the two columns, e.g. i, ii, iii, iv etc. (in column A) and a, b, c, d etc. (in column B). You can also use 3 columns with texts to match.

4. Gap filling with or without clues

The text in the gap filling activity is separate and complete. The text for this item will have a meaningful context too. There will be five gaps in the text. The gaps can be used for article, preposition, or any other parts of speech without verb as there is separate test for it. A question setter will choose one particular item mentioned earlier to set a question and use a gap at the particular place. For example, if the question setter wants to test the article then there will be a gap at the position of a, an, the or before a noun that does not take any article. For a question of 3 marks, there will be six gaps in the text; for 4, there will be 8 gaps; and for 5 marks there will be ten gaps.

Follow the guidelines while writing gap filling test items:

- Prepare a scoring key that contains all acceptable answers for each item.
- Prefer single word or short phrase answers.
- Beware of open questions that invite unexpected but reasonable answers.
- Make all the blanks of an equal length.
- Avoid grammatical clues such as "an."
- Place the blanks near the end of the statement. Try to present a complete or nearly complete statement before calling for a response.
- Limit the number of blanks to one or two per sentence. Statements with too many blanks waste time as students figure out what is being asked.
- If a numerical answer is called for, indicate the units (e.g. currency) in which it is to be expressed.

5. Cloze test with/without clues

A cloze test is a fill-in-the-blank activity that assesses students' comprehension of vocabulary and reading passages or knowledge of grammatical items. In cloze tests there are recurrent gaps at every 4th, 5th, 6th or 7th word. If the first gap, for example, is used at the 5th place, all through the text the gap will be at the 5th place. Unlike the gap filling activity that tests a particular grammar item (e.g. preposition, article, pronoun, or verb) it is a test for vocabulary (key words) in general. This is why gap filling activity in the reading section is usually a cloze test. In contrast, gap filling activity is a merely a grammar test item.

A cloze test with 5 marks will have ten gaps (.5 for each gap). Considering the level of difficulty cloze tests without clues at grade 10 can have 5 gaps (1 mark for each gap).

In answering the question, an examinee does not need to reproduce the text in the answer script. Writing the missing word with the corresponding question number is enough. However, the whole text with suitable words in the gaps will neither earn any extra credit or discredit.

6. Information Transfer

Depending on the level of difficulty and length of the text, information transfer and True/False questions can be set from the same text. However, if the text is too small, **do not** use the same text for both the tests as the content will be inadequate for setting questions. Make sure there is no overlapping or repetitions in the question you have set. Alternatively you can use two different texts for these two test items.

2026 The marks allocated for information transfer is $1 \times 5 = 5$ or $0.5 \times 10 = 5$ (depending on the level of difficulty)

7. Substitution table

It's a grammar test item. It tests whether students can make grammatically correct sentences following any particular structure/s. It's different from matching item. In matching there might be equal number of texts in each column in a table and students need to make sentences using a text from each column. In designing the test item, the question setter can write the texts in Column A in a way so that the sequential arrangement of the text makes a context. In a substitution table, depending on marks, there will be 4 or 5 texts in the left column, 1 or 2 grammar words that shows the form in the middle column, and extensions at the right column. Each meaningful sentence made using the texts and the lexical word will have credit.

8. Gap filling with right forms of verbs

Sentences will be written in context in the question paper. Some verbs could be omitted or given in brackets without any form. If the verbs are totally omitted in the text, a list of verbs will be supplied in a box separately. Students' job will be to use the verb at the gaps in their correct forms according to the context and other grammatical considerations. Alternatively base form of verbs can also be supplied in the body of the text in parenthesis.

Students will write only the right answers with the question number. However, if anyone uses the text with words at the gaps, it should be accepted as correct answer.

9. Changing sentences

A text will be designed with a certain context. Some of the sentences in the text will have instructions in the parenthesis on how to change them. Depending on the marks in the test item, students will be asked to change 5 or 10 sentences. Students will write only the changed sentence as their answers. They can write the changed sentences in any order but must use the correct number used for each sentence in the given text.

10. Rearranging

Rearranging measures students' ability to organize some detached sentences into a coherent and cohesive text. Use 10 detached sentences for classes 6, 7, and 8 (See the sample questions for these grades.). For SSC, Ss will rearrange eight parts of a story/passage (See the sample question for SSC.). Test your test item (with someone else or you sit for a test) to check whether the sequence of the answer vary. If the answer varies and each variety has a complete meaning, redesign the test. Use linking words/sentence connectors to maintain cohesion and coherence in the text. Learners do not need to reproduce the text in their answer scripts. If they arrange the corresponding

serial of the texts correctly (such as b. d. a, f or v, iii, vi. i ... etc), they will get full credit. **Please remember that the test objective here is the organisation of sentences, not the copying of texts from the question paper.** However if any learner comes with sentences written in a random text, there is no need to penalize him/her. Students will get credits for the correct answers. For example, if the answer is like this:

a. X b. √ c. √ d. X e. √ f. √ g. X h. X i. √ j. X the student will get 5 marks.

The test has no relation with the texts used in the previous test items.

11. Writing summary

Use a text not exceeding 150 to 200 words for classes 6 to 8 and not exceeding 300 words for classes 9-10 in the question paper. Learners will produce a summary using one third words of the given text. For an example, if the original text has 150 words, learners will produce the summary in 50 words. However, 5% plus minus is okay. This answer should be written in random texts not in isolated sentences. There is no question of counting number of sentences in summary. So **DO NOT** mention in the question paper how many lines or sentences learners will use to make a summary. The number of words used here is important. Make sure that they are writing in their own words, not copying some sentences from the text. Practice them to avoid examples or explanations in writing a summary. A fresh text should be given to make summary. No text used in the previous test items can be used here.

12. Writing a paragraph answering questions

Make sure while answering questions your students will be guided to write a well structured paragraph. In other words, if the students answer the questions properly, there will be a paragraph of a befitting topic sentence followed by arguments/ideas to support the topic sentence and a conclusion to summarise what has been told in the topic sentence and the body. There cannot be any new ideas in the conclusion. However, if there are 5 questions to answer, it does not mean that students will write only five sentences. They will use sentences as per their discretion but the paragraph as a whole answer the questions. If there are 10 marks for this item, learners should be able to make at least 10 sentences. The word limit for classes 6-7 is 150 words, for class 8, it is 170 words, and for 9-10 it is 200 words at least. 10% plus minus can be accepted. Keep an eye on the content rather than the mechanical calculation of sentences. **Assess the paragraph from different aspects such as grammar, ideas, organisation of ideas, communication, punctuation, and spelling.** Do not assess the paragraph from the perspective of grammar accuracy only. Regarding the composition writing in Paper 2 (which is structurally an essay) the word limit will be 250 for classes 6-7, 300 for class 8, and 350 for 9-10.

13. Completing a story

There will be the beginning of a story in the question paper. Students will continue the story and complete it. The answer will vary here. Completing a story when given at classes 6-8 should be more guided (See sample question for classes 6-7.) where question setter not only begins a story but also provides with some clues for the extension of ideas. Students will complete the story following the clues. A good idea is to mention the word limit when there is no clues for the students. Assess the paragraph from different aspects such as grammar, ideas, communication, organisation etc.; do not only assess the paragraph only from the perspective of grammar accuracy. Moreover, use of cohesion (inter-connectedness of the sentences) and coherence (transition from one idea to another idea) are important here. Word limit here will be similar to paragraph writing.

14. Open-Ended Questions

Open ended or essay format questions are excellent for measuring higher level cognitive learning and overall comprehension of a reading text/passage. They allow the student to select content for their response, to organize their thoughts in a logical manner and to present their ideas on a given subject matter. Overall, these types of test questions allow teachers to test student's broader understanding of a reading item.

When writing good open-ended questions, keep the following guidelines in mind:

- Be sure that the test question clearly states the answer that you are seeking from the student. For example, "Discuss the outcomes of environment pollution" is a poor test question. But, worded as "Describe the potential impacts of the environment pollution on the people of coastal regions in Bangladesh" or, what are the causes and impacts of environmental pollution on the people of coastal regions in Bangladesh? is a better test question as it clearly gives the student something to compare and contrast within a focused area.
- If you are looking to test comprehension, a good opening line for the test question is, 'Explain the following...'
- If you are seeking to test the student's ability to analyze a concept, a good opening phrase for your test question is, 'compare and contrast....'
- Don't give students the option to pick 2 or 3 questions from among 5. This can add confusion for the students and complexity for the teacher when grading for a classroom. This type of test format often compromises with validity and reliability of the test.
- Here you are setting recalling questions, design the question in a way so that examinees do not have opportunity to pick answers by matching the vocabulary in the question and answer.

Question setters have to go by the following class-wise guidelines in setting questions.

Grades 6-7

There will be 5 open ended questions each bearing 2 marks for the correct answer. There will be 2 questions for recalling answer, 2 questions to check students' understanding, and 1 question for analyzing information.

A list of action verbs according to Bloom's Taxonomy for lower order and higher order thinking questions are supplied here to be used while designing the test items.

Remembering/recalling: describe, define, list, locate, tell

Understanding: describe, classify, discuss, explain, identify, select, translate, predict

Analysing: solve, use, interpret, sketch, illustrate, classify, differentiate, organise, relate, identify, categorise, compare, contrast, construct, distinguish, explain,

Evaluating: argue, defend, judge, select, support, value, critique, assess, justify

Creating: construct, develop, investigate, design, imagine, justify

(for more information please visit:

<http://cft.vanderbilt.edu/guides-sub-pages/blooms-taxonomy/>)

15. Dialogue writing

A dialogue in real situation is an exchange of information. This has to be reflected in the dialogue written by the test giver. A dialogue cannot be a mere combination of fragmented sentences or snappy phrases or collocations like *Hi/Hello/Yes/No/Very good/Thank you/Welcome/See you/Bye etc.* There must be some questions and answers in full sentences. A dialogue has to contain at least 5 questions and their answers or 10 exchange of statements including some questions in full sentences other than greetings.

16. Writing letters/e-mails

If it is an informal letter, content is important. If it is a formal letter, both content and form are important. Formal letter can be written either in British style (each paragraph indented at the beginning for one space, date at the upper right hand corner, name at the right hand corner at the bottom). It can also be written in American style (All paragraphs in a line without indenting, date name everything at the left hand corner). Picture of an envelope or stamp is not needed but address can be written. Yet, if any student provides them - it will not earn any extra credit or penalty.

For e-mails, student must write the e-mail id, subject, and content as written in a genuine email. Students should be taught in the class that there should be a considerable margin at the answer script. However, there should not be any penalty for any examinee if the answer script has no margin. Margin has nothing to do with assessment of the answer.

Word limit should be mentioned in the question paper. Again the word limit is 150 words for classes 6-7, 170 words for class 8, and 200 for classes 9-10 with 10% plus minus.

17. Describing graphs and charts

Graph should be authentic. Teachers may collect charts from various sources such as newspapers, magazines, books or from the internet. Alternatively, teachers can use authentic data and make simple charts by themselves. Describing a graph or chart needs certain language abilities. The graph and chart presented in the textbook show that. A marker of answer scripts should keep an eye whether those languages are used or not. Answers will include the written presentation of data shown in the graph followed by a concluding remark. A question setter should mention the word limit for describing the graph or chart. Do not ask students to produce any graph on the answer sheet. They will only describe it.
